

Faster fastenings

Powder coated AP rivets delivered in 3 days*

Premium quality Outstanding service

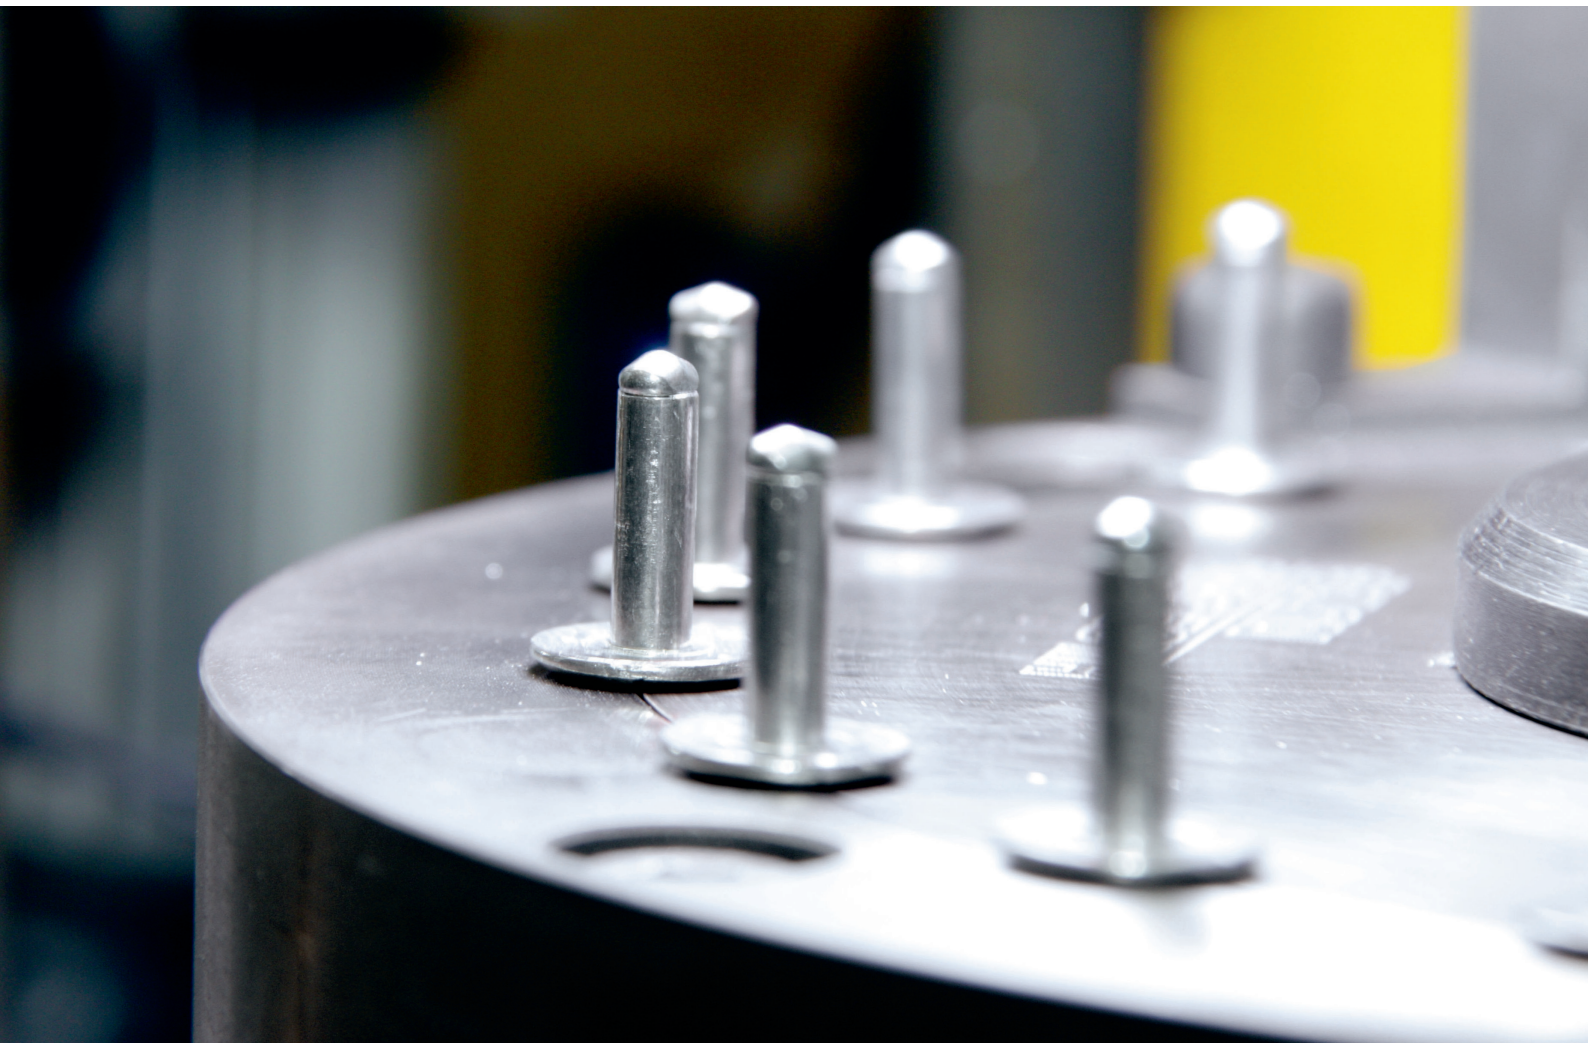

The SFS AP rivets are ideal for securing high performance cladding panels to steel or aluminium support systems. Their superior quality and performance makes them an ideal choice, colour matched to leading OEM's panels and despatched within three days from ordering.

***Our Service Offering**

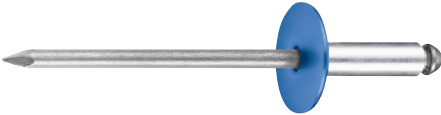

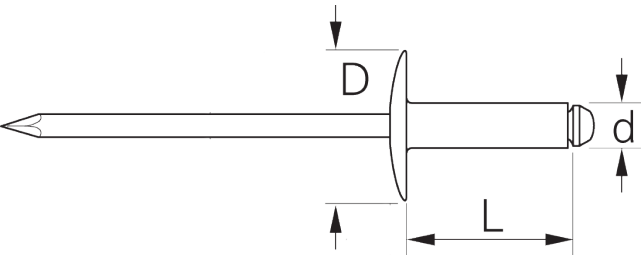

We powder coat our AP rivets to your specific colour requirements at our Leeds production facility.

Orders will be despatched within **three days** when the order is placed before 12 noon for all 100+ **standard colours** outlined overleaf.

More colours are available though longer lead times and additional costs may apply. Please contact your local sales representative or our customer services team for a quotation.

High Performance Powder Coating

It is essential that fasteners deliver a level of aesthetics and durability that match the building envelope.

The high quality powder coating used on SFS fasteners was developed to keep up with architect's increasingly innovative designs and to provide increased benefit over the outdated moulded head products that are subject to UV degradation.

The powder coating process results in a robust finish that is excellent for weathering and colour stability in exposed external applications.

SFS powder coated fasteners can also qualify for our unrivalled 12 year colour stability guarantee without the need for regular cleaning.

Tools and Accessories

Centralising drilling gauge

Ensures accurate drilling of substructure.

Available in 4 nose dimensions

Rivet spacer nosepiece

Ensures rivet installed off the panel to allow sliding point.

Suitable for Accubird & Powerbird

Alternative centralising nosepiece

Alternative nosepieces for centralising drilling gauge. 4 sizes available

Drill bit

5.1mm diameter x 110mm

Fixed point sleeves

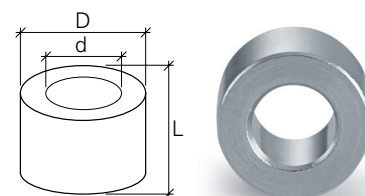

Ensures rivet is installed at a fixed point by filling the hole in the panel.

Material: Aluminium

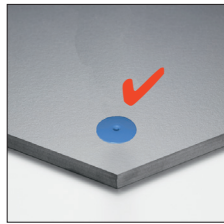

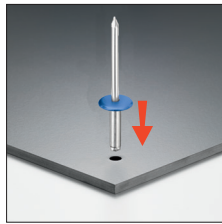

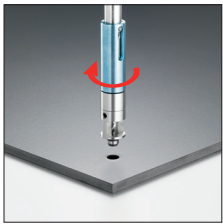

FP-A-7,9x6

FP-A-8,4x6

FP-A-9,4x6

The centralising drilling guage can be used with all cordless screwdrivers available on the market
